CMSC389N: Introduction to PHP and JavaScript

Introduction (Fall 2017)

This course provides an introduction to the development of Web-based applications using PHP, JavaScript, MySQL/MariaDB, and Apache. The course covers fundamental programming language constructs of both PHP and JavaScript, forms, sessions, interation with MySQL/MariaDB via PHP, DOM, and JavaScript event-handling. In addition, popular JavaScript libraries (e.g., JQuery) will be overviewed.
